Related Categories: CFSelenium, ColdFusion

Just a quick note to let you know that [Brian Swartzfager](#) has added support for ColdFusion 7 and 8 to the [CFSelenium project](#) by adding a tag-based cfc. This is now included in the latest version (1.2), which can be downloaded from the [CFSelenium RIAForge page](#).

Brian, who will be maintaining the tag-based version, has written up a [blog post about this addition to the CFSelenium project](#).
